Dear Examiner Radtke:

Could we have a telephone interview to discuss Serial No. 10/663,477, currently under final?

I've attached a proposed response to be used a telephone interview agenda. I think that the language of the claims distinguishes from the relied upon art, but would like to know if any wording changes should be made, in your opinion.

Ideally, what I would like is to be able to come up with mutually agreed claim language that is likely to overcome the cited art.
